

T-1000 SERVICE BULLETIN

Subject:	Clarification of Part Number Identification
EXTEX Part Number(s):	Various (See Description)
Engine Application(s):	Various (See Description)
Revision History:	Dated 6/17/11 Initial Release. Dated 2/12/16 Updated TIMKEN to EXTEX Engineered Products. Dated 9/15/17 Updated Table 1 to current PMA Supplement numbers.

DESCRIPTION:

This service bulletin is intended to clarify the part number identification of certain EXTEX PMA approved articles that are identified with a trailing dash number (e.g. xxxxxxx-001). In these cases it is acceptable if the leading zeros are or are not identified on the article. The part numbers with or without the leading zeros are equivalent.

APPLICABILITY:

This service bulletin is applicable to all EXTEX PMA approved part numbers where the trailing dash number may or may not have leading zeros (e.g. xxxxxxx-1,xxx-xxxx-xxx-005, xxxxxxx-51).

Table 1 (below) identifies some of the part numbers and the corresponding equivalent part number.

Table 1

<i>Part Number</i>	<i>Equivalent Part Number</i>	<i>Engine Application</i>	<i>Supplement</i>
